Weddings and Special Events

Personal Sommelier

If you are serving wine at your event, why settle for stock banquet wines or the wines that your caterer can get at Costco? Why accept wine and wine service as an after-thought? Instead, why not work with a Lemon Rock Sommelier Services to create and orchestrate a truly memorable wine experience for you and your guests?

The Planning Stage

Prior to your event, your Personal Sommelier will:

- Work directly with you and your Planner to conceive and curate your wine program
- Work within your established budget and pricing guidelines
- Attend Chef's menu tastings and pair wines accordingly
- Suggest a range of wines to feature at all the different venues of your event
- Be your advocate to access unique wines at best pricing
- Source wines from strategic partners
- Ensure your wines are delivered on time and stored appropriately
- Ensure appropriate and sufficient stemware is in place

The Event

On the day(s) of your event, your Personal Sommelier will:

- Ensure the correct wines are in the proper locations and prepared for service
- Ensure every bottle of wine is flawless
- Oversee all aspects of beverage service for your entire group
- Personally manage all aspects of beverage service for the Bridal Party and VIP tables

Afterwards

After the event, your Sommelier will:

- Secure and transport your remaining bottles of wine to a pre-determined location
- Coordinate storage and/or shipment of remaining wine if appropriate
- Be readily available to you and your guests via email to answer questions about the wines served at your event and how to find them.
